DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or render obvious the claimed combination including: a device for the intermittent dispersal of a fluid comprising: a reservoir to receive a fluid providing an increasing pressure in the reservoir; a housing in fluid communication with the reservoir, the housing in fluid communication with a source of the fluid, the housing in fluid communication with a liquid dispersion configuration; a valve member at least partially contained within the housing, the valve member being movable from a closed position to an open position when the pressure in the reservoir equals or exceeds a first pressure level, and from an open position to a closed position when the pressure is less than or equal to a second pressure level, the second pressure level being lower than the first pressure level; and wherein the valve member obstructs the flow of the fluid from the reservoir to the liquid dispersion configuration in the closed position and permits the flow of fluid from the reservoir to the liquid dispersion configuration in the open position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
